

fastscan.io™

SCANNING SOLUTION

COMING SOON

Medit® i900®

Discover the New Standard in Medit Intraoral Scanning

The fastscan.io™ Scanning Solution featuring the Medit® i900® delivers better comfort and control in an easy-to-use workflow that maximizes your clinical care and creates a more comfortable patient experience.

- Enjoy outstanding accuracy and resolution with **errorless metal and edentulous scanning**.
- Scan from any position using the **smaller, lighter, and symmetrical ergonomic design** of the i900.
- Navigate with **real-time haptic and light feedback** via an interactive touch pad.
- An open-system OS means **easy integration** with your equipment.

Medit and i900 are registered trademarks of Medit Corporation.

“

The wand from the fastscan.io featuring Medit i900 is just the right size and balance for quicker, more comfortable scans. Plus, it's great on metal surfaces, edentulous scans, and nails those hard-to-reach spots during scanning.”

– Taylor Manalili, DDS | Irvine, CA
Director of Clinical Prosthodontics at Glidewell
