Material Safety Data Sheet

Section 1 - Product and Company Identification
Trade Name: DURACETAL™
Manufacturer: CDM, Inc.
812 Water St NE
Albany OR 97321
Information Phone: 541-928-4444
Emergency Phone: 541-928-4444
Prepared by: Dr. V Kim Kutsch
Bob Bowers
CEO
COO

Section 2 - Composition/Information on Ingredients
Product Class - Acetal
Chemical Name and Synonyms: Polyoxymethylene Copolymer
Acetal Copolymer
HAZARDOUS INGREDIENTS:
*** All components of this product are either listed on or exempt from listing on the TSCA Inventory.
(No hazardous ingredients known at this time)

Section 3 - Hazards Identification
Hazard Ratings: Health: 0 Fire: 1 Reactivity: 0 PPI: A

Permissible Exposure Level:
Formaldehyde (A decomposition product)
PEL (OSHA) 0.75 PPM, 0.92 mg/m3, 8 HR TWA
STEL: 2 PPM
TLV (ACGIH) Ceiling 0.3 PPM, 0.37 mg/m3
This is a polymeric compound. All ingredients are encapsulated by the polymer and present no likelihood of exposure under normal conditions of processing and handling.

Effects of Overexposure:
Acute or Immediate Effects:
Ingestion: Not a probable route of exposure.
Skin: Pellets are not likely to cause irritation. Contact with molten material may cause thermal burns. Processing fumes may cause irritation.
Eye: Solid/dust may cause irritation due to mechanical action. Processing fumes may cause a burning sensation and tearing of the eyes.
Inhalation: Formaldehyde may cause respiratory sensitization, and has been listed as a potential carcinogen by OSHA, ACGIH, IARC, and NTP. Formaldehyde should not pose a risk if exposures if temperatures are kept below permissible limits.

Section 4 - First Aid Measures
First Aid:
Eyes: Flush with water. Consult a physician if symptoms persist.
Skin: Wash with soap and water. For thermal burns, immediately flush with cold water. Do not attempt to remove polymer from skin. Obtain medical attention.
Inhalation: Leave exposed area and seek fresh air. If irritation persists seek medical attention.
Section 5 - Firefighting Measures
Flammability Class: 1  Flash Point: None  LEL: None  UEL: None
Extinguishing Media:
Water spray and foam. Water spray is preferred. Dry chemical and C02 are not generally recommended due to their lack of cooling capacity, which may allow re-ignition.
Special Firefighting Procedures: Persons exposed to products of combustion should wear NIOSH approved self-contained breathing apparatus and full protective equipment.
Unusual Fire and explosion Hazards:
This compound has no unusual fire or explosion hazards.

Section 6 - Accidental Release Measures
Steps to be taken in case material is released or spilled:
Spilled pellets can cause a slipping hazard. Sweep area as needed.

Section 7 - Handling and Storage
Precautions to be taken in handling and storage:
Store in a dry sprinkler equipped warehouse.
Other Precautions:
Proper purging and shut down procedures should be followed to avoid overheating of this compound.

Section 8 - Exposure Controls/Personal Protection
Respiratory Protection:
A NIOSH approved respirator is recommended for protection against processing fumes, or from dust generated from grinding, sanding, or sawing operations.
Ventilation:
Local exhaust is preferred
Protective Gloves:
Canvas or cotton gloves are recommended.
Eye Protection:
Safety glasses with side shields are recommended.
Other Protective Equipment:
None.

Section 9 - Physical and Chemical Properties
Boiling Range: None
Evap. Rate: Unavailable
Volatiles: Volume %: N/AP  Weight %: N/AP
Appearance: Cylindrical Pellets  No Odor
Vapor Density: Non Volatile
Specific Gravity: 1.41
11.1 DEVICE MATERIAL COMPOSITION MSDS FORM (Continued)

Section 10 - Stability and Reactivity
Stability:
Hazardous Polymerization: ( ) Unstable ( x ) Stable
Incompatibility:
Strong acids, bases, and oxidizing agents. Incompatible with halogenated polymers such as
PVC and PVDC at processing temperatures.
Conditions to Avoid:
Avoid temperatures above 238 C (460 F). Avoid Prolonged Temperatures above 193 C (380 F).
Hazardous Decomposition Products:
Carbon Monoxide, carbon dioxide, formaldehyde, trioxane, paraformaldehyde, and formic acid.

Section 11 - Toxicological Information
Toxicity Data:
No specific toxicological information is available.

Section 12 - Ecological Information
Ecotoxicity:
No specific ecological information is available. This material is considered to be non-
biodegradable.

Section 13 - Disposal Considerations
Waste Disposal Method:
The pellets, regrind, and purge of this material are non-hazardous and may be discarded in
accordance with state, federal, and local regulations.

Section 14 - Transport Information
D. O. T. Shipping Information:
Not regulated under US Department of Transportation.

Section 15 - Regulatory Information
SARA title III Section 313:
This product contains the following toxic chemicals subject to the reporting requirements of
section 313 of the Emergency Planning and Community Right To Know Act of 1986 and of
40 CFR 372:
