Stop snoring. Sleep better. Get aveoTSD®.

aveoTSD®
Tongue Stabilizing Device

The brilliantly simple solution for problem snoring.

How aveoTSD works

In this MRI* image, the tongue falls into the back of the airway as a person sleeps. This blocks the airway, leading to snoring.

*Magnetic Resonance Imaging
GE Signa Profile EXCITE 0.2T

This MRI image shows the aveoTSD holding the tongue gently forward. Note how the airway is now open and clear. This stops or greatly reduces snoring.

Patients:
Please print this sheet and take it to your dentist or physician who can prescribe you an aveoTSD.
