BruxZir®
ZIRCONIA

CONFIDENCE + SPEED + BEAUTY

BruxZir® Zirconia provides solutions for dentistry's everyday challenges. The family of materials gives dentists durable, affordable and simple-to-use options for nearly every indication — from single crown to full-arch prosthesis. Though best known for strength, today's BruxZir formulations also offer confidence, speed and beauty.

2009

BruxZir®
FULL-STRENGTH

The original leader in strength, made for the **toughest challenges** of the oral environment

2018

BruxZir®
esthetic

Designed for **versatility**, with strength and translucency suited for both the posterior and anterior

Ceaseless Innovation for Everyone in Dentistry

At Glidewell, we had long dreamed of “The People’s Crown” — a material that performed as reliably as cast-gold, but with an appearance and price point loved by dentists and patients alike. This vision was made reality with the release of the

BruxZir

original BruxZir Zirconia in 2009. But we weren’t satisfied. With monolithic zirconia, the possibilities seemed endless, driving us to iterate, improve and evolve — a ceaseless effort that results in an expanding range of BruxZir formulations with distinct uses and benefits.

JIM GLIDEWELL, CDT
Visionary Behind BruxZir Zirconia

BruXZir®
ZIRCONIA

CONFIDENCE + SPEED + BEAUTY

BruxZir Zirconia is proven to perform by independent research and your peers. In fact, at Glidewell we're so confident in the American-made family of materials that we back every BruxZir restoration with a **lifetime warranty** and **no-fault remake policy**. Should you ever have a problem, we'll remake the case at no cost to you.

BruxZir®
ZIRCONIA

CONFIDENCE + **SPEED** + BEAUTY

All BruxZir Zirconia cases from Glidewell only need **3 days in lab**, meaning your patients will spend less time in provisionals and get their new smiles sooner than ever before. This is made possible thanks to proprietary innovations at Glidewell, with artificial intelligence and automation guaranteeing that speed is always paired with quality.

For maximum speed, try Next-Day BruxZir Zirconia — an industry-first option for overnighting crowns and bridges up to three units.

BruXZir®
ZIRCONIA

CONFIDENCE + SPEED + **BEAUTY**

While the BruxZir brand originally built its name on strength, the formulations available today offer **patient-pleasing beauty** in addition to toughness. Glidewell's proprietary processing has led to major gains in the coloration, translucency and overall appearance of BruxZir Zirconia, making it an excellent choice for virtually every smile.

TESTIMONIALS FROM BRUXZIR DOCTORS

DR. LEIF LÖBERG
Laguna Hills, Calif.

"In our practice, BruxZir Zirconia is the gold standard. The material is unique for its fracture and wear resistance. Even for patients with severe bruxism, we've never had a BruxZir restoration break or chip. If I had to pick a word to describe BruxZir, it would be bulletproof."

DR. TINA MINH GARZA
Cypress, Texas

"BruxZir is really easy to use. With BruxZir, I don't have to stress or worry about the restoration. The fit is great. It's super strong. I have a lot of confidence, and very, very few remakes. It's a great material."

**DR. KAVEETA
CHANNAMSETTY**
Mt Kisco, N.Y.

"Esthetics is no longer optional in our practice — it is a necessity. So, we have to be able to offer our patients the best of materials. And BruxZir is it."

DR. JACOB HASLAM
Ogden, Utah

"We talk a lot about what costs money in running a business. What's really expensive is time in the chair for a remake. And, it's not happening with BruxZir Zirconia."
