Section I	Garreco, Inc.	Emergency T	elephone Number: CHEMTR	RAC 800-424-	9300	
Manufacturer:	P. O. Box 1258	Telephone N	Telephone Number for Information: 501-362-6261			
	Heber Springs, AR 725	43 Date Prepare	ed: 10/15/07			
Section II - H	azardous Ingredients/Ider	itity Information				
Hazardous Compone	ents		OSHA PEL	ACGIH TLV	Other Limits Recommended	
Methyl Methacry	late (CAS# 80-62-6)		100 ppm	100 ppm		
Substituted Tolu	idine (CAS# 99-97-8)		NE	NE		
Benzophenone (CAS# 131-57-7)			NE	NE		
Hydroquinone (G	CAS# 123-31-9)		2 mg/m <sup>3</sup>	2 mg/m <sup>3</sup>		
Section III - F	Physical/Chemical Charac	teristics				
Boiling Point: 10	1°C,214°F S	pecific Gravity (H <sub>2</sub> 0=1):	0.94			
Japor Pressure	(mm Hg.):29 mm at 20°C, 68°F M	lelting Point: N/A				
Vapor Density (A	NR=1): 3.5 @ 60°F, 16°C E	vaporation Rate (Butyl	Acetate =1): 3.0			
Solubility in Wate	er: 1.6g/100g @ 20°C, 68°F A	ppearance and Odor: 0	Clear, pale liquid, with an acrie	d fruity odor.		
Section IV - F	Fire and Explosion Hazard	Data				
Flash Point : 10	°C, 51°F F	lammable Limits	LEL: 2.12	UEL: 12.5		
Extinguishing Me	edia: Chemical foam, carbon dio>	ide, dry chemical.				
Jnusual Fire and	d Explosion Hazards: Vapors ma	y travel to source of ign	ition and flash back. Heat ca	n cause polym	erization	
with rapid releas	se of energy which may rupture of	ontainer explosively.				
Special Fire Figh	ting Procedures: Wear self conta	ained breathing apparat	tus & full protective gear. EXP	LOSION HAZ	ARD-Fight	
fire from protect	ed location. Use water spray to c	ool containers.	na ta 19 ji mayo ka	We wanted and the second s		
Section V - R	eactivity Data					
Stability: Unstab	ole C	onditions to Avoid: He	at and ignition sources, aging	and contamin	ation.	
ncompatibility: C	vidizing agents reducing agents	and LIV/light Matarial				
	shaizing agente, readoing agente	and Ov light. Material	I has strong solvent propertie	S.

## MATERIAL SAFETY DATA SHEET

#### SECTION I

MANUFACTURER: Co-Oral-Ite Dental Mfg Co, Inc. 3340 Sunrise Hlvd Rancho Cordova, CA 95742

TELEPHONE:

(916) 638-8282

PRODUCT: PRODUCT: MATERIAL POWDER - COLD CURE PLACETOR MATERIAL POWDER - COLD CURE PLACETOR MATERIAL

FORMULA: -(CH2C(CH3)CØØCH3)-X + Dialkyl Phthalate

SECTION II: PRINCIPAL HAZARDOUS INGREDIENTS

8

<15

Sollard Blacks Labor

TLV

5 mpm

Dialkyl Phthalate

### SECTION III: PHYSICAL DATA

EVAPORATION RATE: Nil VAPOR DENSITY: Not Applicable

SOLUBILITY IN WATER: Insoluble PERCENT VOLATILE: <5%

APPROXIMATE BOILING RANGE: Not Applicable DENSITY: Not Applicable

APPEARANCE AND ODOR: Fine powder. Faint odor in bulk,

### SECTION IV: FIRE & EXPLOSION DATA

FLASH POINT (METHOD): Flash ignition approx. 304C (TCC)

APPROX. FLAMMABLE LIMITS: Not applicable

EXTINGUISHING MEDIA: Carbon dioxide, water, dry chemical

SPECIAL FIRE FIGHTING PROCEDURES: Avoid extinguishing methods which may generate dust clouds. Water stream can disperse dust in air, producing a fire hazard and possible explosion hazard if exposed to ignition source.

UNUSUAL FIRE & EXPLOSION HAZARDS: Polymer dust is combustible. The explosive limits of the polymer particles suspended in air are approximately those of coal dust. Firefightens should wear self-contained breathing apparatus.

# SECTION V: HEALTH HAZARD DATA

INGESTION: Rinse mouth out with water. Ingestion of small quantities of this material under normal circumstances would not cause harmful effect.
