Details below.

How have your patients responded to same-day crowns?

My patients appreciate the time-saving aspect of same-day crowns, as they can leave the dental office with their restoration in place, avoiding the hassle of returning for additional appointments.

Did your staff easily transition to a digital workflow?

Thanks to the team at Glidewell, the transition was effortless. We received two days of in-house, hands-on training and my staff quickly became proficient in using the mill.

How has glidewell.io™ helped you make a great return on your investment?

I am now streamlining my workflow, reducing chair time, and improving patient outcomes. Patients are so impressed that they tell their friends and family, which is the best and most cost-effective marketing for my practice.

What advice would you give to someone considering glidewell.io?

Research different CAD/CAM systems and get a hands-on feel for how each system operates and how it integrates with your current workflow. You will see the benefits that glidewell.io offers compared to competitors.
