

MEET A GLIDEWELL.IO™ IN-OFFICE SOLUTION USER

Brittany Bergeron, DDS
Towson, MD
glidewell.io user since 2023

How has this technology transformed your practice?

We now have two fastmill.io™ In-Office Mill units and a fastprint.io™ 3D Printing Solution system. Everything has changed for the best. These tools have completely redefined my workflow.

What are the benefits of same-day dentistry for your patients?

It accommodates patients with busy schedules and helps those with dental anxiety who dread multiple appointments. Everyone appreciates completing their restorative work in one visit.

How has glidewell.io changed your approach to dentistry?

I believe it's made me a better dentist. Now that I'm marking my own margins, I consider some things differently when preparing teeth for restorations. As dentists, we know the contours and nuances of teeth, which a lab tech might not consider — now we have fewer remakes and open margins.

What feedback do you receive from patients?

Patients are incredibly appreciative that they get to leave with a permanent restoration in just one appointment. It's something they go tell others about to spread the word.
