

MEET A GLIDEWELL.IO™ IN-OFFICE SOLUTION USER

Eric Block, DMD
Acton, MA
glidewell.io user since 2023

What made you interested in digital dentistry?

It's essential to incorporate new techniques, technology, and treatments to reenergize myself and avoid burnout. Now, I love going to work every day. That joy has come from using a new workflow.

How has glidewell.io™ affected your workflow?

There are more opportunities for same-day procedures, which has helped fill scheduling gaps created by going off network. Plus, my staff are much happier not dealing with temporary crowns.

Have you had a good financial return on your investment?

I don't even keep track of my lab bills anymore because I know they're much lower. The cost of materials, such as a milling block versus a lab-made crown, is a huge factor.

How do your patients feel about same-day dentistry?

They love it! I had a new patient who was so impressed that she called her husband, who had an appointment elsewhere, to come to me instead because I offer same-day crowns.
