

MEET A GLIDEWELL.IO™ IN-OFFICE SOLUTION USER

Lillian Wang, DDS
San Diego, CA
glidewell.io user since 2023

What makes the fastmill.io™ such an essential tool for you?

The support team is exceptional, the materials are incredibly simple and efficient, and the workflow is straightforward. Plus, I've seen patient referrals increase because they love the convenience of same-day service.

What differences have you noticed between using glidewell.io and other systems?

With the system I was previously using, every time there was an issue, we had a hard time getting support. With glidewell.io, the support is outstanding. Every time I call, I not only get assistance, but I also learn something new.

Can you talk about the materials used with the fastmill.io?

The shades match perfectly, and the workflows are easy to follow. Restorations come out of the mill looking great already.

What advice would you give to other dentists who are considering making the switch to fastmill.io?

Go for it! The support and simplicity you get with glidewell.io is unmatched. Whether you're new to same-day dentistry or transitioning from another system, the learning curve is minimal.
